

LEONI Bulgaria hosted visitors from professional high schools

Pleven, 5 June 2023. LEONI Bulgaria hosted a one day visit of young people from high schools in Pleven. The future graduates from the Mechanical school and the Chemistry and Electronics school toured the plant headquartered at 30 000 sq m.

They were briefed about the major steps in wire installations production in automotive. Interest was earned by the explanation about processes of preparation, cutting, assembling and test of the ready product. „Invisible yet very important part of the future car, each installation produced here, has an important role to play for the safety and comfort in driving“ plant management commented. Neary 5 years after its inauguration, the plant is now among the largest industrial employers in North Bulgaria. Long lasting prior experience is not mandatory to many of the positions here as the company provides induction training to all new commers.

Alexander who is already combining work in the plant with university preparation is commenting: „I face real practical tasks here. I can be useful while able to continuously learn new things“.

About the Leoni Group

Leoni is a global provider of products, solutions and services for energy and data management in the automotive industry. The value chain ranges from standardized cables and special and data cables to highly complex wiring systems and related components, from development to production. As an innovation partner with distinctive development and systems expertise, Leoni supports its customers on the path to increasingly sustainable and connected mobility concepts, from autonomous driving to alternative drives as well as charging systems. To this end, Leoni is developing next-generation cable solutions and wiring systems that reduce complexity and enable higher levels of automation, for example through zonal architecture. The market-listed group of companies employs about 100,000 people in 28 countries and generated consolidated sales of EUR 5.1 billion in 2021.
