

# FieldLink® MC power and signal cables

Now available on stock

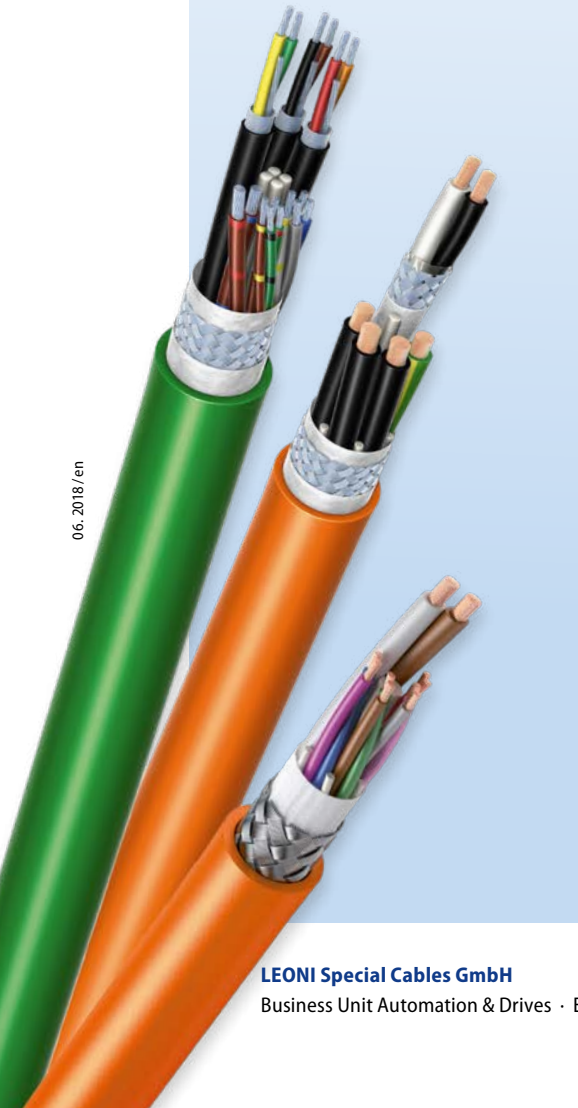

## Your drive – Our solution.

LEONI disposes of a wide range of power and signal cables. The cables are used for power supply, as well as for signal and data transmission and also manufactured by OEM standards.

The power and signal cables are constructed according to the DESINA colour code as well as certified in agreement with VDE, UL and CSA. The cables are manufactured in accordance with current OEM standards and now available from stock. The delivery is possible within 48 hours if the delivery quantity exceeds 250 metres.

We also offer:

- Development of customised solutions
- Assembled products
- Suitable for drag chains
- Customized-specific logistics services
